

IN THE SPECIFICATION

Please amend the paragraph at page 11, lines 19-22 as follows:

As the adhesive 13, an epoxy resin composition (for example, Epikote 828 or 1001 manufactured by Yuka-Shell Co., Ltd.), which has mutual dissolubility with the impregnating resin, is used in addition to the polyvinyl alcohol.

Please amend the paragraph at page 14, lines 17-20 as follows:

As the adhesive 13, an epoxy resin composition (for example, Epikote 828 or 1001 manufactured by Yuka-Shell Co., Ltd.), which has mutual dissolubility with the impregnating resin, is used in addition to the polyvinyl butyral.

Please amend the paragraph at page 11, lines 22-25 as follows:

As the adhesive 13, an epoxy resin composition (for example, Epikote 828 or 1001 manufactured by Yuka-Shell Co., Ltd.), which has mutual dissolubility with the impregnating resin, is used in addition to the polyvinyl formal
